VIJAY P

UI/UX Designer | Product Designer

Manamadurai, Tamil Nadu, India | +91-9342641524 | vijaynisha343@gmail.com | linkedin.com/in/vijay-p | github.com/cythonvijay

PROFESSIONAL SUMMARY

2026 Computer Science Engineering graduate with 3+ years of hands-on UI/UX and product design practice through independent and academic product development. Works across the design process in Figma, from user flows and wireframes to prototypes and design systems. Front-end skills in HTML, CSS, JavaScript and React allow me to build what I design and to collaborate with developers on technical feasibility.

TECHNICAL SKILLS

UX Design: User-Centered Design, Design Thinking, User Flows, User Journey Mapping, User Personas, Information Architecture, Wireframing, Usability Testing, Heuristic Evaluation, Accessibility & Inclusive Design (WCAG)

UI Design: Visual Design, Typography, Color Theory, Layout & Composition, Responsive Design, Cross-Platform Mobile & Web UI, Interaction Design

Design Tools: Figma (primary), FigJam, Adobe XD, Canva

Prototyping: Interactive Prototypes, Low- and High-Fidelity Prototyping, Micro-interactions

Design Systems: Component Libraries, Variants, Auto Layout, Constraints, Reusable UI Patterns, Style Guides

UX Research: User Research, User Interviews, Surveys, Competitive Analysis, Affinity Mapping, Requirement Gathering

Frontend / Technical: HTML5, CSS3, JavaScript, React (basics), REST API, Swagger, Python, MySQL

Collaboration: Git, GitHub, VS Code, Stakeholder Communication

PROJECT EXPERIENCE

NEXUS - E-commerce for Men, UI/UX Design & Front-End | Figma prototype

- Designed a responsive menswear shopping experience centered on seamless product discovery.
- Mapped user flows for browsing, smart search, secure authentication, cart, wishlist, checkout and payment, prioritizing usability and conversion.
- Delivered a consistent visual design system across all screens.

STUDENT LEARN - AI, Learning Dashboard | Figma design

- Designed a dashboard for tracking courses, progress and AI-assisted study suggestions, using card-based layouts and clear information hierarchy.

TRANEY - Fintech Dashboard | Figma design

- Designed scannable views of balances, transactions and spending trends with a focus on data visualization, trust cues and accessible contrast.

Gym Landing Page | Figma prototype

- Designed a high-energy landing page guiding visitors from hero to membership sign-up, with an interactive prototype of the full flow.

SHOP IT - E-commerce Platform | Figma prototype

- Designed a responsive e-commerce website covering listing, product detail and checkout from reusable components.

CRONOS - Code Analyzer (Final Year Project) | GitHub

- Designed the workflow and interface for an AST-based static analysis platform that checks Python code changes without executing or storing source code.
- Built trust into the experience by communicating the data-privacy guarantees directly in the interface; built with Python, FastAPI and the Gemini API.

EMBERS - Offline-First Disaster Communication System

- Designed the interaction model and interface for a communication system that works without internet or mobile network access, prioritizing clarity for high-stress emergency use.

EDUCATION

B.E. Computer Science and Engineering | St. Michael College of Engineering and Technology | Nov 2022 - May 2026 | CGPA: 8.0

CERTIFICATIONS

- Fundamentals of UI/UX Design: Microsoft (Coursera)
- UI/UX: Vital Skills with Techkriti, IIT Kanpur
- Engineering and Product Design: Microsoft (Coursera)
- Responsive Design: freeCodeCamp
- JavaScript: Great Learning
- Engineering Graphics: NPTEL
